

Virsage Managed Services provides enhanced security and reliability in an easy to manage format. We combined industry-leading platforms for remote network monitoring, online backup and recovery, and email threat defense into an affordable and accessible hosted service.

# Managed IT Services

## DATA STATISTICS + BACKUPS /

Every week 140,000 hard drives crash in the U.S. and simple drive recovery can cost upwards of \$7,500 without guaranteed success.

## FACTS /

- 60% of corporate data resides on PC desktops and laptops
- 31% of PC users have lost all files due to events beyond their control
- 93% of companies that lost their data center for ten days or more filed for bankruptcy within one year of the disaster

(Sources: National Archives and Record Administration, Strategic Research Institute)

*“I have been very impressed with your work, expertise, and high customer service response. Thank you. You have really made a difference to my ability to perform my job and I’m sure are making the same impression on others here.”*

*Customer Survey - 9/11/08*

# Managed IT Services

## **ONLINE BACKUPS /**

Transition to a secure and easy off-site storage solution.

- Secure, encrypted, off-site backup and restoration of your files through an easy-to-use web client
- Backup to our secure data center from anywhere and/or maintain a local copy of your files
- Supports backup of Microsoft® Exchange Server, Microsoft® SQL Server, and MySQL
- Message-level restore capability simplifies email recovery

## **EXCHANGE + SHAREPOINT /**

Virsage offers hosted Exchange Server 2007 service, management, and support, with regularly scheduled maintenance and monitoring 24x7. Windows® SharePoint™ Services provides a central location where coworkers, partners, and customers can share issues, contacts, announcements, web links, and calendars. Team members easily create workspaces for meeting discussions, surveys, documents, task lists, and other collaboration, increasing productivity.

## **EMAIL FILTERING + ARCHIVING /**

Virsage Email Defense is an accurate, easy to implement, and cost effective antispam solution with fully managed service that blocks email-based threats before they enter the network. In addition to Virsage Email Defense, we offer Message Archiving which enables oversight of internal and external email and attachments to help manage potential workplace liability issues.
